

Macbeth

You have all read the "prose version" of *Macbeth* in *Project X*. Now it is time to explore the original text to fathom the beauty of the language and gain knowledge of the play's real nature. **Your task will be to summarize one of the five acts and perform a scene from that act. You will also explain difficult words before the performance.** I will afterwards ask the class questions in relation to the scene to check knowledge and understanding. You should consult the following excellent website for information in relation to *Macbeth*:

<http://library.thinkquest.org/2888/?tqskip=1> Below you will find a list of the groups and the act each group will summarize and perform a scene from and last but not least explain words to. Rehearsing is the key to success this time.

As you will notice, I have decided the act but you will choose a scene yourselves. You will find transcripts from the scenes on the above mentioned website or ask your kind teacher for a paper copy. This is the last chance to improve your grade in this course!
